Safeblowers Get In Work At Troy

YEGGMEN ROB TROY PASSENGER STATION AND MAKE GETAWAY

Troy, Feb. 5.—A second time within three nights safe robberies in this section occurred when the safe of the Union Passenger Station in Troy was blown open and rifled last night.

The first safe robbery occurred on Wednesday night at Shady Grove, a few miles above Troy, when the large safe of John Reddoch was blown open, causing a loss of about eight hundred dollars to Mr. Reddoch.

In both cases the robbers escaped. The tracks of the Shady Grove yeggmens were hardly cold and the excitement abated when robbers came into Troy, holdy robbed the passenger station safe of its contents and got away.

At nearly three-thirty o'clock this morning a report was heard by Fletcher Crow at his sleeping apartments above his store, adjacent the station. He hurriedly went down into his store, but found nothing wrong. He went out on the front porch and looked over about the passenger station, but everything looked dark over there, and he went back to bed, not knowing that bold yeggmens were rifling a safe not fifty yards from where he stood.

That the safe was blown open was discovered this morning by Policeman W. B. Belly, who passed that way at six o'clock. He found a switch light dimly burning just outside of the office door, and then discovered that the safe had been robbed. Ticket Agent Alfred was notified and the officers immediately set to work trying to apprehend the criminals.

Mayor Folmar detailed Chief of Police McBryde and Policeman Gus McBryde in the chase. They soon learned that a switch lamp had been stolen from South Three Notch yards on the Coast Line, and also that a railroad velocipede belonging to Night Operator Will Lawson had been stolen from near the Coast Line freight depot. Later it was reported that men had passed Ansel, above Troy, on the Coast Line, at 5 o'clock this morning, using the

YELLOW FEVER NOT SERIOUS

Message From Aboard Gunboat Marietta States That All Men Affected Are Doing Well.

Pensacola, Fla., Feb. 4.—A wireless message from the cruiser Marietta, via Key West, was received today by Scott M. Loftin from his brother, Ensign Edward H. Loftin, in which the latter state the reports of yellow fever aboard that vessel are somewhat misleading and conditions are very favorable for the early recovery of the men who are ill.

There are not likely to develop any more cases aboard the ship, as all necessary precautions have been taken.

The wireless said that the Marietta will arrive in Key West Sunday afternoon.

W. R. Chapman, left this morning for Geneva, where he goes to attend court.

Velocipede. The officers hurried in that direction in the hope that the robbers might be captured. They carried with them the bloodhounds.

Ticket Agent James Alfred, who is one of the most careful agents of the roads, stated that he never carried very much money in the safe but that the robbers secured between \$150.00 and \$200.00. The exact amount he could not tell until he went over his accounts. Some of the papers in the safe were badly scorched, but were left unharmed.

AEROPLANES MAY GO TO MEXICAN BORDER

ARMY OFFICERS REGARD PRESENT TIME FAVORABLE TO EXPERIMENTS

Washington, Feb. 5.—Whether experiments with aeroplanes along the Mexican border while fighting is now going on shall be conducted by the signal corps of the United States army will be determined tomorrow by Brigadier General James Allen, Chief of that branch of the service, and Major General Leonard Wood, chief of staff of the army.

General Allen, said today that both General Wood and himself were of the opinion the present fighting in Mexico would afford an excellent opportunity to see how much information air scouts could gather. Secretary of War Dickinson also is favorable to such tests being made.

While General Allen indicated that the decision tomorrow doubtless would be in favor of making the proposed tests, he said no orders had yet been issued to air scouts to start for the border. Commodore John Barry Ryan of the United States aeronautical reserve with reserve will be here tomorrow to consult with Generals Wood and Allen. He will issue the orders to a half dozen or more members of the reserve to start full speed for El Paso if it is finally decided to use the aeroplanes.

COUNTY COURT AIMOURS

Owing to the fact that circuit court is in session in a special term of court, county court adjourned this morning to hold a session at the next term.

J. H. Blackwell of Miami, Fla., was in the city yesterday visiting relatives and friends.

ROBBERS LOOT A TEXAS BANK

Blow Open The Vault While Many Citizens Looked On But Were Unable To Prevent It

Dallas, Tex., Feb. 5.—Terrorizing the citizens and working for more than two hours with explosives while the more venturesome residents were forced to stand in line and watch operations, a small band of robbers destroyed the vault of the Farmers Bank at Duncanville, Texas (ten miles south west of Dallas) early today securing \$2,000 in money and escaping on a hand car.

The first detonations were heard about 1 o'clock this morning. Residents tumbled from their beds and the more inquisitive hurried toward the bank building. Their progress was blocked however by two men with revolvers. As the crowds approached they were forced to form into line and take the role of spectators while others of them worked in the bank.

To prevent an alarm being given over the telephone one of the band forced an entrance to the home of Mrs. George Hood, manager of the local telephone exchange and stood guard at the foot of her bed while the vault was being broken. In all eight charges of nitroglycerine were set off wrecking the vault and the interior of the building. Entrance to the bank's strong box was effected at 1:39 and after authoring up all the cash in sight the robbers departed aboard a hand car. They abandoned the car a half a mile from Dallas. Sheriff Brandenburg and a posse are searching for the men.

Express Messenger Sends Bullet Into Body To Prevent Being Roasted Alive Under Car

Park Ontario, Feb. 5.—Rather than be roasted alive John Whitlaw, an express messenger, shot himself dead while pinned under the wreck of a Grand Trunk passenger train near here Saturday night. Four firemen met death in the crash.

Although crushed under the wreckage of his car Whitlaw regained consciousness and urged rescuers to extricate him. The wreckage was burning however and workers were driven back leaving the express messenger to face death in the flames.

If you don't help me soon I'll end it all," moaned Whitlaw. In a moment there was a muffled shot. He had kept his word.

CIRCUIT COURT IN SESSION

In order to finish up the work left from the fall term circuit court is in session today in a special term.

The dockets were heavy. In the fall term and it was necessary to postpone some of the cases until the special term so that the court could begin in the next county.

REAL ESTATE DEAL

E. R. Porter has bought J. E. Homs half interest in the property just south of the Walford & Porter stables on South Foster street where the shop is located, and will soon erect a large brick building thereon to be used as an automobile garage. Mr. Porter had owned the property jointly with Mr. Homs and now becomes the sole owner. This is a desirable piece of property and when it is built up will add materially to that end of the street.

B. G. Smith, one of the big negro farmers near Haleburg, has sold a part of his farm and wants to locate near Dothan. He is one of the best farmers of that section. He was in town today looking around.

C. E. Miller, of Haleburg, was in Dothan today.

J. J. Jackson was here today from Haleburg.

Missouri Capitol Building Destroyed

BLOUNT'S MANAGERS HAVE PROTESTED

Will Try to Prevent Counting of Duval Vote, Claiming Irregularities Have Been Found.

Pensacola, Fla., Feb. 4.—Blount's campaign managers tonight announced that they would protest the counting of the Duval vote in the senatorial election of Tuesday morning this contest upon a number of alleged irregularities which have been found in the county.

It is expected that when the state committee meets Monday it will face charges and counter-charges by the candidate claiming irregularities in the election.

THE SINS OF THE FATHER

"The Sins of the Fathers" at the Elks Saturday night was one of the best attractions offered in Dothan but the crowd that witnessed it was indeed small. It has been estimated that half of the house was filled with out of town people almost every little town around here being represented.

Dixon was not with the company but left them several weeks ago after playing the leading role for awhile but the troupe were well up on the art of performing and brought out all of the great author's impressive scenes and startling climaxes.

PRIZE DRILL TOMORROW NIGHT

There will be a prize drill of the Dothan Guards tomorrow night at the armory. Every member is requested to be present and try for the further medal.

CITY IMPROVEMENT CLUB

The City Improvement Club will meet tomorrow afternoon at three o'clock with Mrs. R. T. Ghent on Rose Hill.

R. L. Towles, of Ozark, is in the city today.

J. C. Balle, made a business trip down the Coast Line this morning.

MANQUERADO SOCIAL

The Order of Eastern Star No. 26, will hold a Manquerado Social at the Masonic hall on Next Tuesday night, February 14. Every member of the order is cordially invited to attend. No admittance unless masked.

\$500 buys a 5-room house and lot if taken today. Del & Smith.

RECORDS OF GOVERNOR'S AND OTHER STATE OFFICERS LOST.

Jefferson City, Mo., Feb. 5.—The Missouri capitol building was destroyed by fire tonight. Many of the records of the governor's and other state officers are lost.

Lightning which struck the cupola of the dome shortly after 7 o'clock spread the flames to the roof of the House of Representatives on the north side of the structure and in less than half an hour, it was apparent that the building was doomed.

Because of the inadequacy of the water pressure, the fire could not be reached and no aid could be given for some time by the local fire company.

Governor Hadley directed the fight against the flames, which because of the age of the building, rapidly gained great headway. The penitentiary fire department was called and the convicts worked heroically scaling walls and taking dangerous chances for their lives.

The local military company was called out and formed a cordon around the building driving spectators from dangerous positions and removing records from the different state departments.

Money in Time Vault.

The fire soon spread to the roof of the Senate chamber where the efforts of the firemen proved unavailing to check it. The records of the House of Representatives were destroyed while those of the Senate were saved. In the state treasurer's office more than \$20,000 is in the time vault, supposedly fire proof and may be saved when the debris is cleared away. There was no insurance.

The capitol was erected in 1888 at a cost of \$350,000 and in 1887 remodeled at a cost of \$25,000. While it was built of stone, the roof was covered with much inflammable material.

The Legislature will determine tomorrow whether to continue its session here or elsewhere in the state. The loss of the House records practically necessitates the work of the present session being done over.

HARMONY CLUB MEETING

The Dothan Harmony Club will meet with Mrs. W. S. Wilson Tuesday afternoon at 4 o'clock.

This country can proceed with its work now that King George has been cleared of the charge of bigamy.

Many men don't get over their defeat for an office good before they are laying the wires for another on just like it.

There are people you never become acquainted with till they owe you money, and then you never get on speaking terms with them.

The trustees of the steel corporation probably thought that the new president of the trust could make out on half the pay that Corey got as he only had one family to support and no alimony payments.

Dell & Smit have put out a little real estate folder that tells many things to interest the man living outside of Dothan, and there are some living here who would be better satisfied for the reading.

The Atchison Globe thinks that it is difficult to understand what is eating a man who insists on having his picture taken while smoking a cigar. He is in the same class with the man who props his jaw on his hand, running the right forefinger along his nose.

Dr. Allen, in a meeting of the Presbyterian Ministers' Association, said the other day about divorce suits: "Plain John Smith is not often found in a divorce court, but Algernon Sydney Smythe is a familiar figure there." Dr. Allen is about right, when speaking of divorces, for the plain every day names are not so common.

The Gould family manage to stay in the public prints as much as the elder Goulds did when they were making the money that the present set are buying titles with. One of the family has changed the schedule a little, and weds a Hawaiian princess. When one of that name isn't about to marry, they are getting ready for a divorce.

Although there were five alienist employed in the Robin bank swindling case, they failed to make any impression on the jury. The jury brought in a verdict just like there had been no expert witnesses on the stand. The judge was so surprised till he told the jury that his hat was off to them. If this thing keeps on, it won't be long before the alienist business will retrograde to their proper sphere.

A common citizen has no show whatever when the kind of a great country gets the law after a subject, as King George did some time ago against a fellow who had done some tall lying about the king. The trial was a mere formality. The King made the statement and the accused had to fight, but the King never appeared in court. The verdict was in favor of the defendant which in that instance, was in favor of the crown.

There would be a great demand for graphophone records, if some had been made the day of the Montgomery convention on September 1909. That was an occasion Edison cannery ought to have been on the works. When we grow doubtful as to what some of the prominent people stood for, we could have one of the records put in that would give a reproduction that couldn't be doubted.

The lawmakers will evidently do something in the whiskey situation this week that will be interesting reading to several hundred thousand Alabamians, as well as many outside of the state, who have been egging on establishing a new business here, as soon as some law can be put on the books that will allow them. The Montgomery Advertiser and even the Montgomery Journal, are feeling rather uneasy over the outlook. Things are not what they promised, when the alleged "admission" was up for attention.

In Germany all of the young men, unless they have unusual political pull, have to do military duty. A German woman has written a piece for the papers insisting that all men be forced to do a stint of a couple of years or so in the kitchen, with pots and pans to make them better fitted for the duties of life. Her argument is not without good reason. If the few years military training is worth something to the manhood of Germany then a few years serving doing plain and fancy cooking ought to help the women.

Atlanta six months and months adjusting the taste up to an all night car service and then after a few weeks use the street car company sold the people of that burg didn't need any cars to run after one o'clock for the travel stopped then and the streets were deserted. Since it looks as if Atlanta will be doing something it is trying to raise a row now over the withdrawal of the all night cars. Richer than the cars taken off and run in the barn at one o'clock the city's papers had rather see them run empty.

A LIFT

That unusual roaring noise you heard a day or two ago was not a seismographic disturbance as you might have feared but was a general sigh of relief going up from all parts of Alabama. Peyton G. Bowman was getting his. He was made back tax commissioner of Jefferson county job that has a good income a thing that appealed to Peyton just at this time.

All Alabama knew that Bowman hadn't been served yet but they knew he had his order in.

When his order was filled the people felt a relief, and that was the cause of the noise.

HE MIGHT TRY THIS SOLUTION.

A Kansas editor, out where they rob banks and get off with it when ever it seems necessary has asked himself what he would do when he busts up in the newspaper business, as most men do, sooner or later. He says that owing to a wooden leg that the bank robbing business doesn't appeal to him, for he would be so easily tracked.

If he finally has to resort to such measures he might come to this section and crack a few safes. In south Georgia Alabama and some parts of Florida the safe cracking industry has been pursued for some months with no hazard to the nitro glycerine artist providing they got the fuse cut right.

They never try in the bigger towns for they feel that the money is in the banks at night, but they are trying the safes of country stores railroad stations and small postoffices and they get something every time that pays them for their trouble and the powder they use.

HURTING THEIR BUSINESS.

If an insurance agent could tell you how to never have the need of insurance, he wouldn't do it, likely. If the lawyer could tell you a remedy that would keep you from ever having a law suit, the might not do it. If the banker could show you to get along without ever having any

business with a bank, he wouldn't give you a tip that would kill his business. But the doctor does. He is in a class by himself, in that respect. There are other ways though that he differs just as widely. But almost any well informed doctor don't mind telling people how they should live in order to never feel the need of a doctor, or medicine. They probably know that people want take advice, when given free anyway.

There are men in the medical profession who are making daily sacrifices trying to get mankind to live so as to avoid sickness.

The doctor is a wonder, but with all of the work he does for the public welfare he is a jealous man and belongs to a class that knife each other under the fifth rib when the opportunity comes.

They are ethical when ethics are up, and they observe certain rules which the public knows but little of in their relations with each other. But who of you knows a doctor that doesn't at times stab another doctor in practicing the same school of medicine? Maybe you know doctors who always speak in the highest terms of the others medical skill but they come mighty rare.

Put with it all the doctor has a lot in much time trying to get people to do things that would kill their income.

Probably they understand that the public will not get in the same notion.

Of course at times some of them do things that cause themselves to be pulled, but not often. Not often enough to make the business the least bit hazardous. These people may be contributing something to the support of the city but nothing like what they should. If they were pulled and fined once a month it wouldn't be so bad, but the average isn't so high.

Speedy Relief from Kidney Trouble

"I had an acute attack of Bright's disease with inflammation of the kidneys and bladder, and dizziness," says Mrs. Cora Thorp, Jackson, Mich. "A bottle of Foley's Kidney Remedy overcame the attack, reduced the inflammation, took away the pain, and made the bladder action normal. I wish everyone could know of this wonderful remedy." Sold by N. H. McCallum. 2-1
